

Supplementary Figures

Standard Curve for RB

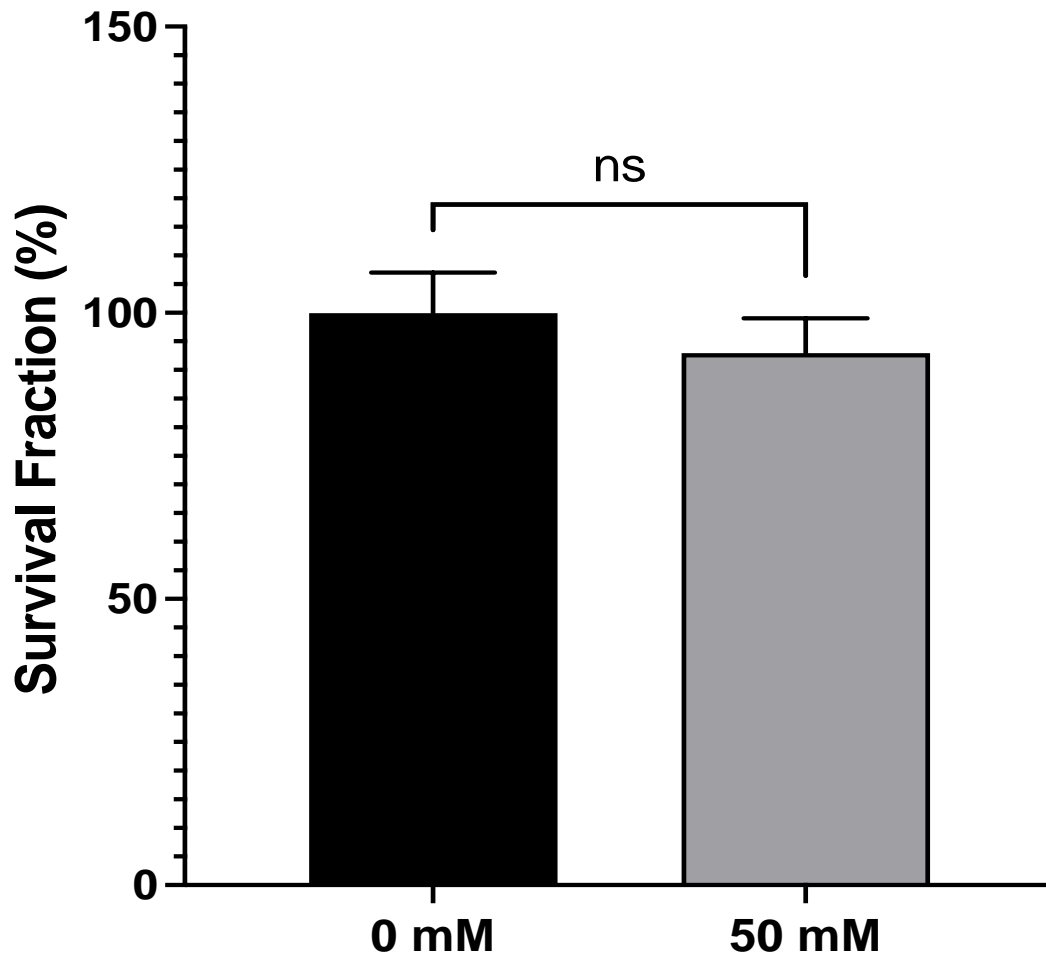

Supplementary Figure 1. The standard curve used to determine RB concentration in 750 µg/ml RB-MSN.

Supplementary Figure 2. The absorption spectra of RB (49.25 µg/ml) and RB-MSNs (750 µg/ml).

Cytotoxicity of Sodium Azide

Supplementary Figure 3. Cytotoxicity of 50 mM sodium azide. ns: Not significant.
